---

## Summary

Computer science student based in Argentina with strong interest in AI, systems and security. Focused on learning and growing my knowledge through new projects. Solid academic background related to programming combined with a set of technical skills and a variety of soft skills like time management, leadership and problem solving.

---

## Professional Experience

Currently looking for exciting internships or job opportunities to gain real world experience and start a promising career.

---

## Projects

### Candy Crush (Academic) 2023

- Built a replica of the game from scratch with a team of 4 using design patterns and going through every stage of development.
- The project was graded 10/10, selected among the top 10 and used in a career fair for future students.

### Nonogram (Academic) 2024

- With a partner we developed a version of the game. Half in JavaScript and the other half using only recursion in Prolog for the logic part.

### Bank Database (Academic) 2024

- Created a database for a bank with a partner using MySQL and Java for the app. Included functioning operations and user management.

### Networks and virtualization labs (Academic) 2025

- Implementation with a partner of different network topologies on LXC containers.

### MiniJava Compiler (Academic) 2025

- Built from the ground up a limited Java Compiler for the start to the creation of low level code.
- 

## Education

### Universidad Nacional del Sur, Bahía Blanca

*Licenciatura en ciencias de la computación (Computer Science)*

February 2021 - Today

Last-year undergraduate student- 82% completed

GPA: 7,96

Relevant Courses: Databases, Data Structures, Networks, Operating and Distributed Systems

### Google CyberSecurity

Time duration: 128 hours.

In progress

---

## Skills and technologies

Design: Data Structures, Object oriented programming, Design patterns, System designs, Clean Code

Operating Systems: Linux, Windows and its consoles

Programming Languages: Java (4 years), C (1 year), SQL (1 year)

Infrastructure: Database Management, Basic network creation.

Misc: Microsoft Office, Tableau

---

## Languages

Spanish: Native

English: C1 Advanced First Certificate(180 pts CEFR) 09/12/2023

Italian: Il Corso di Lingua e Cultura Italiana B1 del quadro CEFR (83/100 pts) 30/03/2018
